

IN THE CLAIMS:

Claims 1-15 [Previously Cancelled]

Please amend the claims as follows:

16. [Currently Amended] A method of treating facial pain caused by trigeminal neuralgia comprising the steps of:
 - a. identifying a subject with facial pain caused by trigeminal neuralgia in need of treatment thereof; and
 - b. administering to ~~a patient in need thereof~~ said subject multifocal injections of a therapeutically effective amount of botulinum toxin to an afflicted area of the face, excluding the brow and upper or lower eyelid, of said patient, thereby reducing or eliminating said facial pain caused by trigeminal neuralgia.
17. [Previously Presented] The method of claim 16, wherein said trigeminal neuralgia is associated with trauma.
18. [Currently Amended] The method of claim 16, wherein said botulinum toxin is administered in a dose of from about 10 to about 200 ~~LD-50~~ LD₅₀ units.

19. [Previously Presented] The method of claim 16, wherein said botulinum toxin is selected from the group consisting of immunotypes A-G.
